

PERFORMANCE 30-YEAR GUARANTEE

Barrington Roof Tiles guarantees that our tiles will remain durable for 30 years.

During the life of the guarantee, your tiles;

- Will not become porous and leak
- Will not crack, split or corrode due to defective manufacture
- Will not be affected by salt air or frost

If your Barrington Slate Tile or Barrington Roof Shingle fails to meet any of these performance standards, Barrington Roof Tiles will, at its discretion, either repair or replace the defective tiles, or supply equivalent tiles for replacement or substitution.

The guarantee does not cover matters beyond our control such as:

- Where the installation of your Barrington Slate Tile or Barrington Roof Shingle has been performed by others and does not comply with Barrington installation specifications. This is to be resolved with the installer.
- Any damage caused to your tiles by any object coming into contact with your tiles, people walking on the roof, air pollution, acts of nature, or by the tiles being treated with the wrong chemicals, cleaners or coatings or process.

Immediately following installation the surface of the tile will weather to a matt grey slate finish.

The guarantee excludes all other warranties and liability for damage or loss in connection with defects in your Barrington Slate Tile or Barrington Roof Shingle apart from those imposed by law (including the Australian Trade Practices Act).
